SOLAR TOILET LIGHT

Providing environmentally safe sanitation to millions of people is a significant challenge, especially in the world's second most populated country. The task is doubly difficult in a country where the introduction of new technologies can challenge people's traditions and beliefs.

Swachh Bharat Abhiyan
"SANITATION FOR ALL"

Eliminating Open Defecation in India by 2nd October 2019 - the 150th birth anniversary of Mahatma Gandhi is the one of the key aim of Swachh Bharat Abhiyan movement launched by Prime Minister Shree Narendra Modi.

Through its Total Sanitation Campaign (TSC), the Government of India has sanctioned projects in all of India's rural districts, building about 57 million individual household sanitary latrines.

Champion Solar commends this decision by the Government and plans to create a product to complement these individual household sanitary latrines.

Champion Solar has created a low-cost toilet light with a built in Passive Infrared Sensor (PIR Sensor), which is able to detect motion and switch on and off automatically. These lights are operated solely through the energy obtained from Solar Energy, and hence do not need to be linked to the electrical grid. This product is highly beneficial for the Rural Areas that are not connected to the electrical grids. The lights are easy to install, and gives ample light even during the night-time.

Champion Solar believes that for Economic Development to take place, it is very important to empower Rural India. Recognizing that poverty will never be alleviated without realizing the huge health and economic benefits of improved sanitation, Champion Solar will thrive to assist with such Government project in order to achieve "Sanitation for All"

SPECIFICATIONS

MODEL	SPG TL-1.5W
Capacity	7.2 VAH (3.6V, 2000mAh) Lithium Battery
Input	6V, 2W
LED Source	0.5W x 3 Nos.
Light Output	> 18 Lux at 2.2 meter height
Light Saving Mode	PIR motion detector used to switch on light
Power Consumption	1.2 W +/- 0.2W
Run Time	7 – 8 Hours on a full charge
Protection for Battery	Overcharge and Over Discharge protection
Indicators	Dual Color LED to show Charge Level of battery

SOLAR ENERGY

- SOLAR TOILET BLOCKS
- SOLAR STREET LIGHT
- -SOLAR SANITATION LIGHTS
- -SOLAR HOME LIGHTS
- SOLAR CONTAINERS LIGHTS
